DOE/EIA-0218(93-03)

Weekly Coal Production

Production for Week Ended: January 16, 1993

Summary

J.S. coal production in the week ended January 16, 993, as estimated by the Energy Information Adminstration from railroad car loadings, totaled 18 million hort tons. This was about the same as in the previous veek, but 8 percent lower than in the comparable veek in 1992.

Production east of the Mississippi River totaled 11 million short tons, and production west of the Mississippi River totaled 7 million short tons.
